Box III TEXT OF THE ABSTRACT (Continuation of item 5 of the first sheet)

NEW ABSTRACT

Systems and methods of the present invention are directed particularly towards linking bids and offers (406) related to the same or similar items (e.g., currency, stocks, bonds, futures contracts, energy). A user may enter parameters (402) for linking bids and offers. The parameters may be entered (404) prior to, or concurrently with, the entry of the bids and offers. In response, the trading system may generate an offer and a bid (408) substantially simultaneously which may reduce the adverse affects of changed market conditions on the latter of an entered bid or offer.
